### **Thurston Conservation District Seeking Applicants for Appointed Board Member Position**

The Thurston Conservation District Board of Supervisors is seeking candidates among Thurston County residents that are interested in serving the people of Thurston County as a volunteer Conservation District Supervisor. There is one appointed position available.

The successful candidate will join a volunteer five-person Board of Supervisors. These individuals serve without compensation and are responsible for setting and maintaining overall district policies and programs regarding the management and conservation of natural resources within the district. Nominees must be registered voters and reside within the boundaries of the Conservation District. The Board prefers that candidates be involved in agricultural activities, aquaculture or forestry industries. We prefer nominees from the Yelm, Rainier and East Olympia areas, though it is not required.

Applications for the appointed position are due to the Washington State Conservation Commission by August 16, 2011.

For more information and to obtain nomination and application forms, contact the District office at 360/754-3588.
